Cen_blocks

Location: census\cen_blocks

Description
2000 Census block polygons, including bays separately.
County is subdivided by US Census Bureau into tracts, then into block groups, then into blocks.

Source
In Sept 2001, Bay County GIS staff received 2000 Census data on CD from Bay County Supervisor of Elections Office; data originally came from US Census Bureau. Bay County GIS staff reprojected data and joined Census attributes. In Jan 2001, Bay County GIS staff dropped, added, and rearranged block attributes.

This data is provided with the understanding that the conclusions drawn from such information are solely the responsibilities of the user. The GIS data is not a legal representation of the features depicted, and any assumption of the legal status of this data is hereby disclaimed. Errors or omissions should be reported to the Bay County GIS Division 850-784-6171.

Attribute Table Structure

Item Name	Width	Output	Type	Decimals
block_fips	15	15	C	-
state	2	2	C	-
county	3	3	C	-
tract	6	6	C	-
ctract	5	5	C	-
ctractw	5	5	C	-
cblkgrp	8	8	C	-
cblkgrpw	8	8	C	-
blkgrp	1	1	C	-
cblock	12	12	C	-
block	4	4	C	-
pop	11	11	I	0
house90	2	2	I	0
senate90	2	2	I	0
congress	2	2	I	0
acres	16	16	N	2
acres_land	16	16	N	2
acres_watr	16	16	N	2
arealand	14	14	C	-
areawatr	14	14	C	-

Attributes

block_fips
Combined block FIPS code in SScccTTTTTTGbbb format:

SS	= State	"12"
ccc	= County	"005"
TTTTTT	= Tract	"000200" – "002700"
G	= Block group	"1" – "9"

bbb   = Block   "000" - "999"

state
State FIPS code: "12" for Florida

county
County FIPS code: "005" for Bay County

tract
2000 tract code   "000200" – "002700"

ctract
2000 tract code   "0200" – "2700"

ctractw
ctract with ending "w" if all water (**arealand** = 0)   "0200" – "2700w"

cblkgrp
Combined **ctract** and **blkgrp** code   "0200-1" – "2700-7"

cblkgrpw
cblkgrp with ending "w" if all water (**arealand** = 0)   "0200-1" – "2700-7w"

blkgrp
2000 block group code   "1" – "9"

cblock
Combined **ctract** and **block** code   "0200-1000" – "2700-7999"

block
block code, including **blkgrp** as first digit   "1000" – "9999"

pop
2000 Census total population in block

house90
1990 House district (?)   6 or 7

senate90
1990 Senate district (?)   1, 3, or 7

congress
Congressional district (?)   1 or 2

acres
Acres per GIS = area / 43560

acres_land
acres if all land or part land   (**arealand** <> 0)

acres_watr
acres if all water   (**arealand** = 0)

arealand
Number in unknown units (from US Census?) indicating block has land

areawatr
Number in unknown units (from US Census?) indicating block has water
